Jonathan,

On Friday, October 7, at 4:58 pm Abre' Connor texted me on my personal phone numbe. I responded and have sent the back and forth to my EPA email. At the time, I did not know or have reason to believe that she was getting in contact for a reason related to Jackson but when we touched base by phone, she brought up the case. I've known Abre' for years but she is now working at the NAACP, which is a complainant in the Jackson case.

Best,

Marianne
